6) The President has raised the question of waiving the municipal portion of the cost of road watering in the Mysore City on the ground that the maintenance cost of the Vani Vilas Water Works is being borne by the Municipality and the Government in the proportion of 2 to 1. It may be stated -- that the cost of road watering amounts from to ₹ 2400/ to ₹ 2600/- annually and the Municipality is being made to bear only a lumpsum of ₹ 1,000, the balance amount of the estimate being borne by Government If the road watering charges are included in the maintenance estimate, the Municipality will be --

required to pay two-thirds cost of the estimate which will amount to more than R 1,600/- There may be no objection to do this if the Municipality or Government so desire

7) 3 In view of the above circumstances, there seems no justification to waive the lumpsum of fixed R. 1,000/- which is already as it is far short of the amount the Municipality is actually required to pay

SIR,

I have the honour to state that nearly a sum of Rs 40,000 being the 2/3rd cost of the maintenance charges of the Vani Vilas Water Works since February 1930 is outstanding and it is proposed to pay it gradually as the cash balance of the Municipality permits The Comptroller writes that the sanction of Government should be obtained for the postponement of payment I therefore request that the necessary sanction may kindly be obtained and communicated as provision for payment of the arrears has been made in the current year's budget

Further, a sum of Rs 4,000/- is being claimed every year on account of the contribution for the road watering of the City This claim cannot be accepted since the entire cost of the maintenance and operation charge of the Vani Vilas Water Works is being borne proportinately

I therefore request that the Government may kindly be moved to waive the claim in view of the arrangement made to meet the entire expenditure

I have the honour to be,
Sir,
Your most obedient servant,

President
